

Index of Authors

A

ABBOTT, J., JR. . . A Splash-Proof Dial for the Navy 15

B

BAILLARD, H.	Solder and the Art of Wiping Cable Splices	43
BEAUMONT, W. M.	A New Service for Residences	244
BISHOP, J. B.	A Radio Transmitter for the Itinerant Flyer	21
BOECK, C. F.	Radio Distribution System for Apartment Buildings	205
BROADWELL, H.	Stroboscope for Checking the Speed of Subscribers' Dials	330
BUDENBOM, H. T.	The 13A—A Radio Receiver for Diversified Uses	375

C

CAMPBELL, W. E.	Sensitive Method of Measuring Corrosion	333
CHRISTOPHER, A. J.	Tuned-Transformer Coupling Circuits	195
CLARKE, W. J.	Experimental Paint and Varnish Compounding	232
COLLEY, R. H.	Mushrooms and Maintenance	301
COLLINS, J. H.	Bus Announcing Outfits	151
CORAM, R. E.	Frequency Monitoring Unit for Broadcast Stations	113

D

DECOUPLY, G. C.	Portable Long Wave Testing Apparatus	178
DENNIS, F. R.	Improved Current Control for Low Range Meter Calibration	311

E

ELLIOTT, J. S., JR. Circuit for Measuring Longitudinal-Circuit Un-
balance at High Frequencies 184

F

FELDMAN, C. B. . . .	Transmission Lines for Short-Wave Radio Systems . . .	117
FISCHER, H. B. . . .	Crystal Control Superheterodyne Receiver . . .	273
FLETCHER, HARVEY . . .	Evaluating Hearing Aids . . .	126
FLETCHER, HARVEY . . .	An Acoustic Illusion Telephonically Achieved . . .	286

G

GARDNER, M. B. . . .	Soft Rubber Earpiece for the Audiphone . . .	339
GOLLER, J. R. P. . . .	Power Equipment Laboratory . . .	214
GRANT, C. T. . . .	Two New Oscillators for the Radio Frequency Range . . .	237
GRANT, D. W. . . .	Light-Weight Transformers for Aircraft . . .	173

H

HAGLAND, H. M. . . .	Order Turret No. 3 . . .	2
HEISING, R. A. . . .	Generating High Frequencies with Precision . . .	100
HICKMAN, C. N. . . .	Delayed Speech . . .	308

K

KING, G. V. . . .	A New PBX for Large Establishments . . .	210
KISHPAUGH, A. W. . . .	A Low-Power Broadcast Transmitter . . .	37
KNOTT, W. M. . . .	Airport Radio Transmitter . . .	17
KREER, J. G., JR. . . .	Heterodyne Oscillator of Wide Frequency Range . . .	137

L

LACK, F. R. . . .	Mounting Quartz Plates . . .	200
LUMSDEN, G. Q. . . .	Proving Grounds for Telephone Poles . . .	9

M

MACMASTER, W. A. . . .	Voice Frequency Control Terminals for Caribbean Radio Systems . . .	369
MALLINA, R. F. . . .	Seeing Sound at the Chicago Exposition . . .	361
MARSHALL, C. H. . . .	Testing the Elasticity of Vacuum Tube Filaments . . .	48
MARTIN, D. K. . . .	New Radio Telephone Equipment for Transport Airplanes . . .	262

MAY, D. T.	The Development of the Protector Block	80
McNALLY, J. O.	A "Low-Hum" Vacuum Tube	158
MEARS, R. B.	Combating Rust with Metallic Finishes	141
MENDENHALL, H. E.	Radiation-Cooled Power Tubes for Radio Transmitters	30
MILLS, R. H.	Uses of Filters in Carrier Systems	296

N

NIELSEN, J. E.	A Crosstalk Measuring Set of Improved Precision	53
NORDAHL, J. G.	A Radio Transmitter for Central American Service	381

P

PASCARELLA, A. J.	Improved Wheatstone Bridge for Toll Test Boards	163
PEEK, R. L., JR.	A Compression Test for Soft Solids	290
PEEK, R. L., JR.	The Deformation of Matter	190
PIDGEON, H. A.	Measuring Microphonic Noise in Vacuum Tubes	145

S

SCHELKUNOFF, S. A.	A Skin-Effect Phenomenon	109
SCOTT, H. J.	Precise Radio-Frequency Generator	102
ST. CLAIR, W. K.	A Telephone System for Harbor Craft	62
STONE, J. R.	Commercial Construction Adopted for Ringing-and-Coin-Control Generators	73
STORKS, K. H.	Artificial Anthracite	279

T

TINUS, W. C.	Three-Frequency Radio Telephone Transmitter for Airplanes	267
TRUCKSESS, D. E.	Charging Batteries Without a Generator	343

U

ULRICH, H. W.	New Common-Battery Board for Small Offices	94
---------------	--------------------------------------------	----

V

VAN DUYNE, C. W.	A Tone Alternator	6
------------------	-------------------	---

W

WALKER, A. C. . . .	Measuring and Recording Low Humidities . . .	222
WALKER, A. C. . . .	Supplying Atmospheres of Known Humidity . . .	169
WATERMAN, ROBERT E.	Forecasting the Behavior of Wood Preservatives . . .	67
WHITEHEAD, M. . . .	The Underwriters' Laboratories	247
WILLIAMS, I. V. . . .	Music Wire Springs	134
WOOD, E. B.	Cellulose Acetate Treatment of Textile Insulation . . .	85
WOODWORTH, F. B. . .	Fishing Industry Adopts Marine Telephony . . .	77

Y

YOUNG, C. H.	Mercury Jig for Testing Toroidal Cores	227
----------------------	--------------------------------------------------	-----

Index of Subjects and Titles

A

Acoustic Illusion Telephonically Achieved	<i>Fletcher</i>	286
Aircraft Radio (see Radio)		
Apartment Buildings, Radio Distribution System for . .	<i>Boeck</i>	205
Arnold, Harold De Forest		351
Artificial Anthracite	<i>Storks</i>	279
Audiphones		
Evaluation	<i>Fletcher</i>	126
Soft Rubber Earpiece	<i>Gardner</i>	339
Auditory Perspective, Reproducing Music in		254

B

Batteries, Charging	<i>Trucksess</i>	343
Binaural Illusion	<i>Fletcher</i>	286
Broadcasting (see Radio)		
Bus Announcing Outfits	<i>Collins</i>	151

C

Cable Splices, Wiping	<i>Baillard</i>	43
Cable Storage Ovens, Recording Humidity in	<i>Walker</i>	222
Caribbean Countries, Communication with (see Radio)		
Carrier Systems, Filters in	<i>Mills</i>	296
Cellulose Acetate Treatment of Textile Insulation . .	<i>Wood</i>	85
Central Office Equipment		
Charging Batteries	<i>Trucksess</i>	343
Common-Battery Board for Small Offices	<i>Ulrich</i>	94
Panel Dial System		319
Protector Block	<i>May</i>	80
Ringing-and-Coin-Control Generators	<i>Stone</i>	73
Tone Alternator	<i>Van Duyne</i>	6
Wheatstone Bridge for Toll Test Boards	<i>Pascarella</i>	163
Charging Batteries Without a Generator	<i>Trucksess</i>	343
Combating Rust with Metallic Finishes	<i>Mears</i>	141
Common-Battery Board for Small Offices	<i>Ulrich</i>	94

Compression Test for Soft Solids	<i>Peek</i>	290
Cores, Toroidal, Testing	<i>Young</i>	227
Corrosion		
Metallic Finishes	<i>Mears</i>	141
Music Wire Springs	<i>Williams</i>	134
Resistance Method of Measuring	<i>Campbell</i>	333
Splash-Proof Dial	<i>Abbott</i>	15
Crosstalk Measuring Set of Improved Precision	<i>Nielsen</i>	53
Crystal Control Superheterodyne Receiver	<i>Fischer</i>	273
Current Control for Low-Range Meter Calibration	<i>Dennis</i>	311

D

Deformation of Matter	<i>Peek</i>	190, 290
Delayed Speech	<i>Hickman</i>	308

E

Echo, Electrical	<i>Hickman</i>	308
Evaluating Hearing Aids	<i>Fletcher</i>	126

F

Filters in Carrier Systems	<i>Mills</i>	296
Filters, Tuned-Transformer Coupling Circuits as	<i>Christopher</i>	195
Finishes		
Cellulose Acetate in Textile Insulation	<i>Wood</i>	85
Metallic	<i>Mears</i>	141
Music Wire Springs	<i>Williams</i>	134
Paint and Varnish	<i>Clarke</i>	232
Fishing Industry Adopts Marine Telephony	<i>Woodworth</i>	77
Forecasting Behavior of Wood Preservatives	<i>Waterman</i>	67
Frequency Monitoring Unit for Broadcast Stations	<i>Coram</i>	113
Fungi and Poles	<i>Colley</i>	301

H

Harbor Craft Telephones (see Radio)

Hearing Aids (see Audiphones)

Humidities, Measuring and Recording Low	<i>Walker</i>	222
Humidity, Supplying Atmospheres of Known	<i>Walker</i>	169

I

Insulation, Cellulose Acetate in	<i>Wood</i>	85
Intercommunicating Service for Residences	<i>Beaumont</i>	244

K

Kirby Two-Eyed Camera		27
---------------------------------	--	----

L

Light-Weight Transformers for Aircraft	<i>Grant</i>	173
Longitudinal-Circuit Unbalance, Measuring	<i>Elliott</i>	184
Long-Wave Testing Set	<i>DeCoutouly</i>	178
Loud Speakers in New York Hospital		241
"Low-Hum" Vacuum Tube	<i>McNally</i>	158
Low-Power Broadcast Transmitter	<i>Kishpaugh</i>	37

M

Magnetic Recording of Speech	<i>Hickman</i>	308
Marine Telephone Equipment (see Radio)		
Measurements and Testing		
Compression Test for Soft Solids	<i>Peek</i>	290
Crosstalk Set	<i>Nielsen</i>	53
Elasticity of Vacuum Tube Filaments	<i>Marshall</i>	48
Generator for Radio Frequencies	<i>Scott</i>	102
Humidities, Recording	<i>Walker</i>	222
Longitudinal Circuit Unbalance	<i>Elliott</i>	184
Long-Wave Testing	<i>DeCoutouly</i>	178
Mercury Jig for Testing Toroidal Cores	<i>Young</i>	227
Meter Calibration	<i>Dennis</i>	311
Microphonic Noise in Vacuum Tubes	<i>Pidgeon</i>	145
Music Wire Springs	<i>Williams</i>	134
Oscillator for Reflection Measurements	<i>Kreer</i>	137
Oscillators for Radio Frequencies	<i>Grant</i>	237
Power Equipment Laboratory	<i>Goller</i>	214
Resistance Method of Measuring Corrosion	<i>Campbell</i>	333
Stroboscope for Subscribers' Dials	<i>Broadwell</i>	330
Two-Eyed Camera Times Races		27
Wheatstone Bridge for Toll Test Boards	<i>Pascarella</i>	163
Wood Preservatives	<i>Waterman</i>	67
Mercury Jig for Testing Toroidal Cores	<i>Young</i>	227
Meter Calibration, Current Control for	<i>Dennis</i>	311
Microphonic Noise in Vacuum Tubes	<i>Pidgeon</i>	145
Mounting Quartz Plates	<i>Lack</i>	200
Mushrooms and Maintenance	<i>Colley</i>	301

O

Order Turret No. 3	<i>Hagland</i>	2
"Oscar"—An Acoustic Illusion	<i>Fletcher</i>	286
Oscillator, A Heterodyne, of Wide Frequency Range	<i>Kreer</i>	137
Oscillators for Radio Frequency Range	<i>Grant</i>	237
Oscilloscope at World's Fair	<i>Mallina</i>	361

P

Paging Doctors in New York Hospital		241
Paint and Varnish Compounding	<i>Clarke</i>	232
Panel Dial System		319
PBX for Large Establishments	<i>King</i>	210
PBX—The No. 3 Order Turret	<i>Hagland</i>	2
Pole Decay	<i>Colley</i>	301
Poles, Proving Grounds for	<i>Lumsden</i>	9
Power Equipment Laboratory	<i>Goller</i>	214
Protector Block, Development of	<i>May</i>	80
Public Address Systems		
Bus Announcing Outfits	<i>Collins</i>	151
Loud Speakers in New York Hospital		241
Reproducing Music in Auditory Perspective		254

Q

Quartz Plates, Mounting	<i>Lack</i>	200
-----------------------------------	-----------------------	-----

R

Radiation-Cooled Power Tubes	<i>Mendenhall</i>	30
Radio		
General		
Long-Wave Testing	<i>DeCoutouly</i>	178
Mounting Quartz Plates	<i>Lack</i>	200
Oscillators for Radio Frequencies	<i>Grant</i>	237
Radiation-Cooled Power Tubes	<i>Mendenhall</i>	30
Transmission Lines	<i>Feldman</i>	117
Aircraft		
Airplane Transmitter—11A	<i>Bishop</i>	21
Airport Transmitter—10A	<i>Knott</i>	17
Airplane Transmitter—13A	<i>Tinus</i>	267
Equipment for Transport Planes	<i>Martin</i>	262
Light Weight Transformers	<i>Grant</i>	173
Superheterodyne Receiver	<i>Fischer</i>	273

Broadcast

Distribution in Apartment Buildings	<i>Boeck</i>	205
Frequency Monitoring Unit	<i>Coram</i>	113
Low-Power Transmitter	<i>Kishpaugh</i>	37

Caribbean

Introduction		365
13A Receiver	<i>Budenbom</i>	375
Transmitters	<i>Nordahl</i>	381
Voice-Frequency Terminals	<i>MacMaster</i>	369

Harbor Craft

Ship Equipment	<i>Woodworth</i>	77
Shore Equipment	<i>St. Clair</i>	62
Radio Frequencies, Generating	<i>Heising</i>	100
Radio-Frequency Generator	<i>Scott</i>	102
Recording Speech Magnetically	<i>Hickman</i>	308
Rectifier for Charging Batteries	<i>Trucksess</i>	343
Reproduction of Orchestral Music in Auditory Perspective		254
Residences, A New Service for	<i>Beaumont</i>	244
Ring-and-Coin-Control Generators	<i>Stone</i>	73

S

Seeing Sound at the Chicago Exposition	<i>Mallina</i>	361
Sensitive Method of Measuring Corrosion	<i>Campbell</i>	333
Shipboard Telephones (see Radio)		
Skin-Effect Phenomenon	<i>Schelkunoff</i>	109
Soft Rubber Earpiece for Audiphone	<i>Gardner</i>	339
Solder and the Art of Wiping Cable Splices	<i>Baillard</i>	43
Sound Made Visible	<i>Mallina</i>	361
Splash-Proof Dial for Navy	<i>Abbott</i>	15
Springs, Music Wire	<i>Williams</i>	134
Stroboscope for Checking Speed of Subscribers' Dials	<i>Broadwell</i>	330

Subscribers' Station Equipment

Key Equipment for Residences	<i>Beaumont</i>	244
Measuring Speed of Dials	<i>Broadwell</i>	330
Order Turret No. 3	<i>Hagland</i>	2
PBX for Large Establishments	<i>King</i>	210
Protector Block	<i>May</i>	80
Splash-Proof Dial	<i>Abbott</i>	15
Superheterodyne Receiver	<i>Fischer</i>	273

Switchboards (see Central Office Equipment)

T

Telephone System for Harbor Craft	<i>St. Clair</i>	62
Testing (see Measurements and Testing)		
Timing Sporting Events		27

Toll Test Boards, Wheatstone Bridge for	<i>Pascarella</i>	163
Tone Alternator	<i>Van Duyne</i>	6
Transformers for Aircraft Radio	<i>Grant</i>	173
Transmission Lines for Short-Wave Radio	<i>Feldman</i>	117
Transmitter Carbon, Artificial	<i>Storks</i>	279
Tuned-Transformer Coupling Circuits	<i>Christopher</i>	195

U

Underwriters' Laboratories	<i>Whitehead</i>	247
--------------------------------------	----------------------------	-----

V

Vacuum Tubes

Elasticity of Filaments	<i>Marshall</i>	48
Hot Cathode Rectifiers	<i>Trucksess</i>	343
"Low-Hum" Tubes for Alternating Current	<i>McNally</i>	158
Microphonic Noise	<i>Pidgeon</i>	145
Radiation-Cooled Tubes	<i>Mendenhall</i>	30
Vail Medal Awards for 1932		387

W

Wood Preservation

Forecasting Behavior of Preservatives	<i>Waterman</i>	67
How Wood Decays	<i>Colley</i>	301
Proving Grounds for Poles	<i>Lumsden</i>	9

World's Fair

Binaural Illusion	<i>Fletcher</i>	286
Delayed Speech	<i>Hickman</i>	308
Seeing Sound (Oscilloscope)	<i>Mallina</i>	361
